13/03/2020	Deliveries Bentley	MNU/DSP

Dear Sir/Madam,

Due to the impact of the SARS-CoV2 virus, we currently receive many queries regarding the availability and delivery of our Bentley product portfolio (BeSmooth & BeGraft stents).

By this notice, we would like to inform you that there are no limitations nor restrictions concerning the availability of our Bentley product portfolio. In this, we even increased our production capacity making sure that enough devices are available for the demand from your hospital.

At Bentley, we care about your well-being and that of your patients, and monitor the developments closely.

Yours sincerely,

Daniela Schmid-Patakas
Head Customer Service

Martijn Nugteren
Director Sales & Marketing
